Dear Joe,
I would like to thank you for the work you did in setting up a new online accounting system for SSCYA. We are a unique non-profit organization and you helped us get through each problem we dealt you. You were tenacious in getting everything right. We appreciated the effort you put in to research our issues. Lastly, I believe you really cared about organization and that you were able to hand off quality job. I would definitely recommend your services to other businesses and individuals.

Take Care,
